

Who are we?

Cova started with a young couple who share a passion for hospitality, and a love of great food. With backgrounds in the industry and experience owning our restaurant, we realised an opportunity to bring a fresh approach to event catering. Coming from families already established in the wedding & events sector we understand the importance of delivering an unforgettable dining experience. Our vision is simple, to reimagine traditional wedding menus with creativity and care, offering restaurant quality food that feels exciting personal and accessible.

What do we offer?

At Cova we believe that great wedding catering goes beyond just serving food – it should be an experience that brings people together. Our menus showcase a variety of examples of what can be achieved for a variety of dining styles, from À la Carte and Family Style Feats to BBQ Hog Roasts, Breakfast Spreads, Lunches or Afternoon Teas. Whatever the occasion, we tailor every menu to reflect your tastes and preferences.

To ensure the highest quality at an affordable price we take a craft-first approach, making as much as possible in house. From pastries and cakes to sauces, stocks and even butchery, we carefully handle every ingredient from the moment it arrives to the final dish. This commitment to quality allows us to create food that is fresh, flavourful, and truly special – designed to make your celebration unforgettable.

À la Carte

Below are two examples of our à la carte menus – a showcase of what can be achieved. However, these menus are by no means limited to the sample menus included. At Cova we believe that a sit-down dining experience should be entirely personal, reflecting your unique tastes, vision, and event theme.

That's why we take time to meet with each client, understand your preferences and craft a bespoke menu tailored to your celebration. Whether you're inspired by a specific cuisine, have a favourite dish you'd love to include or want to explore something completely new, we'll work closely with you to create a menu that feels authentic, memorable, and truly yours.

For a true family style feast, we suggest 2-3 mains and 3-4 sides, served for guests to share, and enjoy together. From options like grazing platters to start or a shared pavlova for dessert the options for family style are endless.
